New Means Adopted for Securing McKinley Memorial Panels. As a suitable souvenir and as a means of

raising money, the McKinley High School Association, at a meeting in the Pestalozzi School at Barry and Seventh streets list night, decided to place plaster placques, with the school and a picture of McKinley worked in base relief, on sale at \$1 each This is one of the methods suggested for raising the remainder needed to pay for the McKinley memorial panels that will be placed in the McKinley High School, at Missouri and Russell avenues. The mem-bers of the association believe that the placques will have a ready sale, and that it is a better way to raise money than to ask persons to subscribe, without getting anything in return. The placques will be ten inches in diameter, finished in bronze gilt and packed in a pasteboard box.

gilt and packed in a pasteboard box.

The association has \$1,10.55 cash on hand and \$43 pledged by the school assiciations. The associations of the Longfellow Hodgins, Peabody and Sherman achools, which have not contributed to the fund, will be urged to subscribe. The memorial panels which are being painted by H. Stoddard of St. Louis, have not been finished because Mr. Stoddard could not get a canvas large enough for the central painting in the United States, and was compelled to send to Europe for it. He expects to finish the work July 1.

The next meeting of the association will be subject to the call of William Ituner, Hudding Commissioner of the Board of Education, who will entertain the members before he departs for Europe next month.
